

# Feature Tabs

The Kaboom Box HDA features a number of tabs that allow for the pyro artist to lookdev and refine the look of the volume.

- [Smoke](#)
- [Scatter](#)
- [Fire](#)
- [Render](#)
- [Bindings](#)
- [Export](#)

**Note :** We ship the HDA with a number of presets to get you started, but you may need to tweak some of the settings to get your exact desired look, depending on your scene and *pyrosolver* settings.
