Frequently Asked Questions

■ Who developed RfH?

This is co-developed between SideFx and Pixar's RenderMan group.

■ How often is RfH sync up with a RenderMan release?

We try to sync as soon as a RenderMan release is available. For big releases, such as a major version change (not a point release), it will take time especially when a new feature UI is not yet supported in Houdini.

How do I report bugs and suggestions?

Please post on RenderMan for Houdini Forum.

■ When I am not sure if I have a Houdini or RenderMan bug, where should I report it?

First take a look here and then, if it is RenderMan shaders and output related, please log a bug on the RenderMan for Houdini Forum.
